ART CAPTURE/SCAN PRICES

1. Our typical expert color correction and a 4x6 proof** on your preferred media. We usually retain these proofs for our records.
2. A color corrected perfected file, no larger than 1500 x 2000 pixel. It will be suitable for web use, post cards, brochures and other promotional use and is only given out at the time of your scan order.

OR

Either the full resolution raw scan file, without color correction or retouching. (Request & extra charges must be made at the time of scanning for this option)

3. Free file storage on our servers (double backed-up), so that you will be able to continue to order prints on any size & substrate and buy larger copies of your files as needed.*
4. A private online account on our website containing all your files we manage for you, where you can order prints, explore costs on different substrates and sizes and view your images using the wall preview tool

*we make no guarantee of archived files from loss due to technical failure.

**In some cases proof not included.

EXTRA CHARGES

- Any color correction and retouching beyond our standard scan correction is charged by the 1/4 hour at \$25. A complimentary 8x10 proof is included with the first and second 1/4 hour of digital services.
- If you should want a larger version of the corrected file, or a file retrieved from the server later on, it will be disseminated in sRGB as an uncompressed tiff file and charged by the megabyte

Megabytes / tiff format	example of prices
Up to 5 MB: \$10 Per Image	1.9MB = \$10.
5MB - 9.9MB: \$15 per Image	9MB = \$15
10MB - 15.5MB: \$3 per MB	12MB = \$36.
16MB - 30MB: \$4 per MB	16MB = \$64.
31MB - 40MB: \$4.20 per MB	31 MB = \$130.
41MB - 54MB: \$4.30 per MB	41MB = \$176.
Over 54MB: \$235 + \$1/MB over 54MB	55MB = \$236
