

HOLIDAY 2019

(cover) **MR BISON, INK** || *prints starting at \$30, original painting \$9500*

TO YOU AND YOURS,

I just wanted to say thank you. Whether you're a curious new fan or a current collector, you guys make this all possible. "This all," of course, being the coolest job in the world. I'm incredibly grateful to be pursuing my passion and running a small business right here in Kansas City. And, wherever possible, I'm pursuing local help and production. This year I also made good on a big goal to connect with more of you in person and opened a retail space on the Plaza at Made in KC Marketplace!

Not only can you sip on a coffee or a cocktail while you shop some of the most original and creative gifts this holiday, by shopping at Made in KC you can also keep a whopping \$93 of every \$100 you spend right here in Kansas City (compared to just \$1 of every \$100 from Amazon). So, whether it's with me or any other makers in your town, it pays to shop local.

Happy holidays,

Megh

GANG'S ALL HERE

Whether it's Leggy or Duck Hawk, everyone has a favorite Jayhawk. Not sure? The '41 War Hawk is our best seller.

THE '12 (LEGGY)

The first and friendliest. Designed with shoes on for "kicking" its opponents...

THE '20 (RAVEN)

The least known (and appreciated) Jayhawk, ironically the most bird-like.

THE '23 (DUCK HAWK)

My personal favorite of the group. Though it's like picking a favorite kid.

THE '29

Stoic and somber, this truly reflects its depression-era introduction.

THE '41 (WAR HAWK)

Introduced in war-time America, this Jayhawk has a fighting spirit.

THE '46/05 (CURRENT)

The current Jayhawk, introduced in '46 but "KU" updated in '05.

THESE JAYHAWKS ARE OFFICIALLY LICENSED BY KU.

Prints starting at \$40.

YOUR STORY, MADE TANGIBLE.

Commission Megh for a personal, original piece.

A treasured memory, pieces of your history, or the entire story of your life woven deeply into a work of art. A commissioned painting by Megh is a story told through her about you, her beautiful muse.

Your piece will be an heirloom to pass on - thoughtfully researched, deliciously textured, with deeply intentional strokes on the canvas and often meaningful, unorthodox materials mixed right in. The process from start to finish transforms an idea or a feeling into something tangible and tactile. It is a treasure hunt. It is you, woven in.
