

LTI-Lightside after-hours drop box info sheet:

Note the location of our after-hours drop box when the window gates are up. Basically, anything you can fit into an 8.5" x 11" envelope -- not fatter than 2" thick -- will slide right though into a secure catch box inside the lab.

Here's what you'll see when we're closed. Note that the now "secret" drop box is hidden behind the gate on the right so as not to be obvious -- but it is still easily accessible from underneath.

DO NOT drop your film in the large open slot on the left, that's our mail slot and it is not secure for film!

Remember to always follow up with us via e-mail or phone when using the drop-box slot. And as always, feel free to check in anytime with questions or concerns.
