

TB Murphy

Art Solutions

Full-service art solutions designed especially for interior decorators, designers, and art curators.

Hello,

I'm Tim "TB" Murphy

Digital Artist

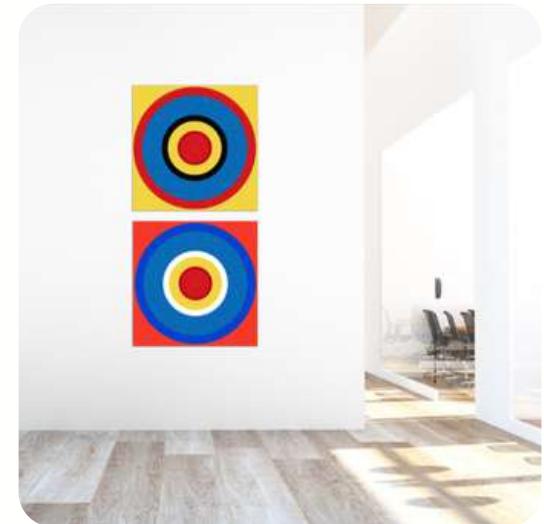

I'm TB Murphy, a versatile artist passionate about creating captivating commercial art. My expertise spans various styles, including mid-century modern, contemporary, pop art, and geometric abstract. I take pride in crafting pieces that cater to diverse design preferences, adapting my unique vision to suit a wide range of aesthetic tastes.

Portfolio

Diverse Art Styles

My collection features a variety of artistic styles tailored to complement any project. Whether you prefer sleek mid-century modern designs or vibrant contemporary artworks, my diverse selection offers something unique for every space. With hundreds of digital art files available for printing, I have a vast array of options to choose from.

Fulfillment Platform

Seamless Production and Delivery

I offer a comprehensive fulfillment platform that allows me to deliver premium professional print products to my clients. My integrated e-commerce, proofing, ordering, and studio arrangement solutions give designers and curators the control, flexibility, and easy-to-use tools needed to achieve successful sales.

Substrate Options

Highest quality **Canvas Prints** available

Canvas Gallery Wraps are crafted by printing on Professional Photo Paper and affixing it to museum-quality canvas, or by directly printing Premium Fine Art Prints onto canvas material. The resulting print is skillfully wrapped around an artist's stretcher frame and furnished with your preferred hanging hardware. Additionally, they can be enhanced with a range of custom frames and offered as Wall Clusters and Splits for added versatility.

The best **Metal Prints** available

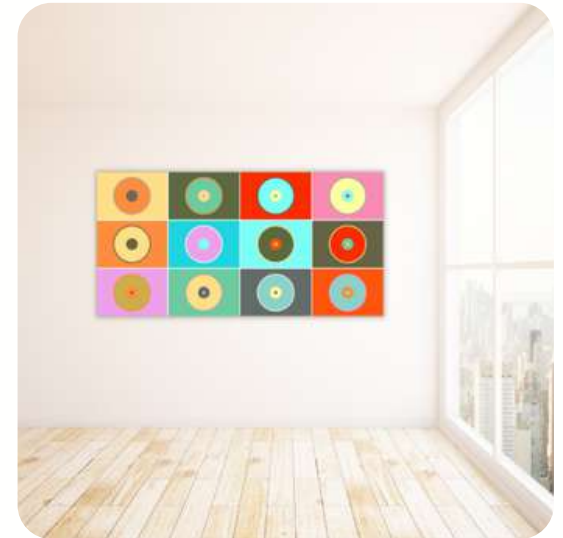

Crafted through the infusion of dyes into specially coated aluminum sheets, MetalPrints™ are revered by photographers and artists worldwide for their enchanting luminescence. Experience unparalleled brilliance and awe-inspiring radiance in every print, where colors come alive with vibrant intensity.

Acrylic Prints

Acrylic's remarkable clarity and solid texture offer a sophisticated enhancement to your images and artwork. The polished surface's 3D luminosity breathes life into images with vivid colors and captivating depth. Explore our diverse selection of options to craft the ideal wall art or tabletop display.

Maple Wood Prints

Maple Wood Prints offer a warm, eco-friendly option with images printed directly onto 1/2" thick maple wood boards. The wood's grain and characteristics shine through light and white areas, adding a natural, vintage feel. We can also print a white ink underlay to enhance your image's true colors. Each print is unique, showcasing the beautiful wood texture on its surface.

Exquisitely finished Framed Prints

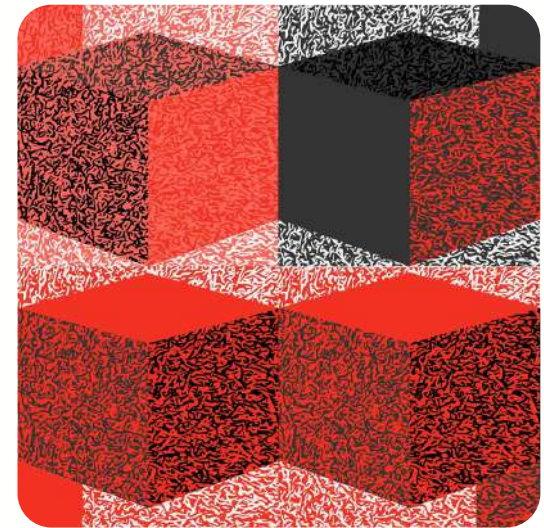

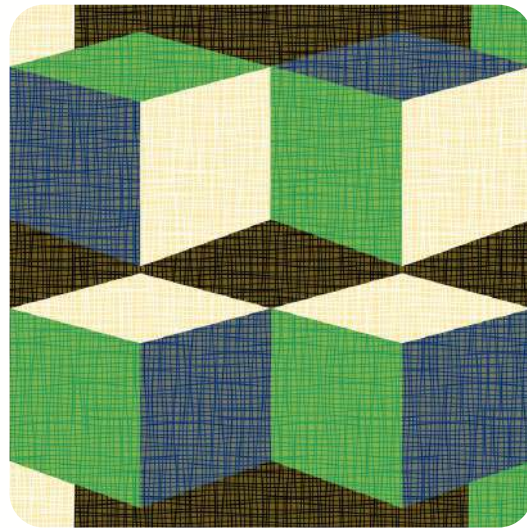

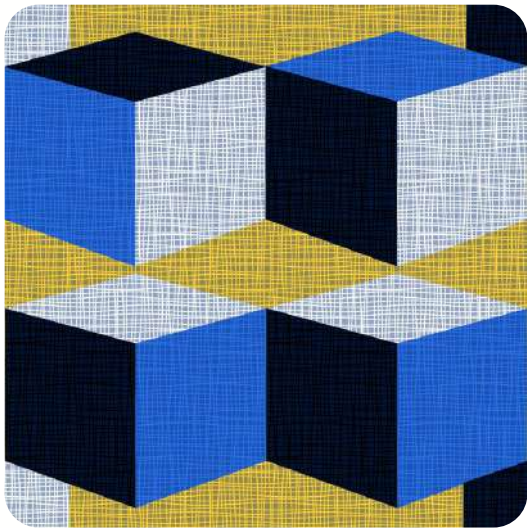

Choose from a variety of high quality wood or metal frames in a range of colors and moulding profiles. Frames can be added to Photographic Prints, Fine Art Prints, MetalPrints, Epic Prints, and Canvas Prints.

Custom Color Options

...

I work closely with clients to provide custom color options that accentuate their interiors. My personalized approach ensures that every piece of art is tailored to meet our clients' specifications.

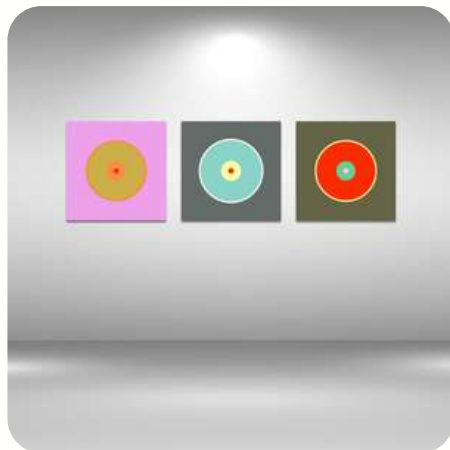

Cost-Effective Solutions

Affordable Art Solutions

My art solutions offer flexibility in both size and substrate, allowing me to tailor pieces to fit your budget without sacrificing quality. From compact canvases to expansive installations, and from traditional prints to modern metal finishes, I provide a range of options to suit various price points. Whether you're working with a modest budget or looking for a statement piece, I can adjust my creations to deliver maximum visual impact at a cost that works for you.

Collaborative Partnerships

Let's Collaborate

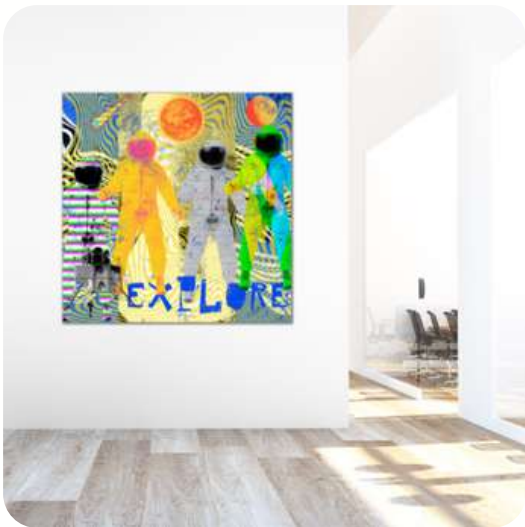

Collaboration is key to my approach. Join forces with me to transform your design concepts into reality, crafting spaces that resonate long after they're experienced. Together, we'll tailor custom art pieces to suit your unique design aesthetic, seamlessly integrating them into your interior compositions. Let me handle the creative process – I've got you covered!

Opportunities

Shifting Paradigm

I collaborate with designers from project inception, creating art tailored to your vision. My industry research revealed that many corporate interior designers lack budgets for original artwork, often resorting to online platforms. Recognizing this gap, I offer custom pieces that align with your design goals and project constraints, seamlessly integrating art into your spaces without compromising quality or originality. And within your budget!

Summary

Why **TB Murphy** Art Solutions?

- Wide range of artwork options available without physical inventory
- Customizable digital art to suit individual client preferences
- Clients have control over selecting artwork to complement their home design
- Creates an additional profit center for your firm
- Expands reach and caters to diverse clientele
