

TB Murphy

Design

Full service art solutions designed for interior decorators, designers, art curators, and discerning homeowners alike.

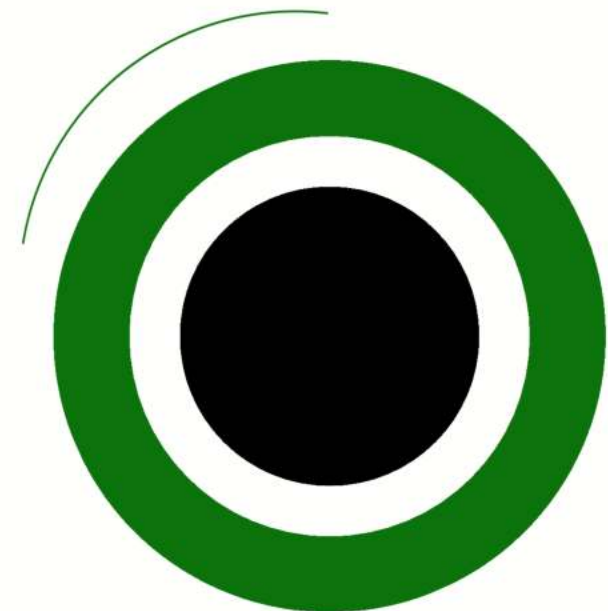

Hello,

I'm Timothy "TB" Murphy

Digital Artist

As a digital artist, I'm passionate about creating original art that transforms spaces. From mid-century modern elegance to bold contemporary pieces, playful pop art, and striking geometric abstracts, I craft artwork that perfectly complements your unique design vision.

Portfolio

Diverse Art Styles

My portfolio features a diverse range of art styles for every project. From sleek mid-century modern pieces to vibrant contemporary works, each piece adds a unique touch to any space.

Fulfillment Platform

Seamless Production and Delivery

I've partnered with Bay Photo Lab to deliver exceptional print quality for my clients. Their comprehensive platform handles everything from proofing to ordering and museum quality shipping, giving designers and curators the control and flexibility they need for seamless project management.

Substrate Options

Highest quality **Canvas Prints** available

I create Canvas Gallery Wraps using two premium methods: printing on Professional Photo Paper mounted to museum-quality canvas, or printing directly onto premium canvas material. Each piece is expertly wrapped around professional stretcher frames with your choice of hanging hardware. For even more impact, I can add custom frames or arrange them as Wall Clusters and Splits.

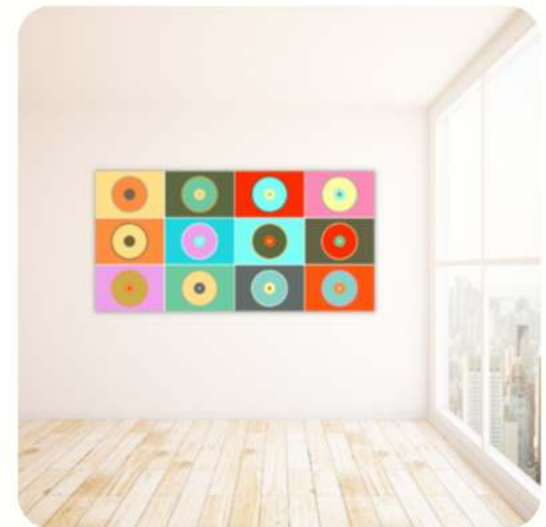

The best **Metal Prints** available

I create MetalPrints™ by infusing dyes directly into specially coated aluminum sheets. This process produces the luminous quality that makes these prints so popular with photographers and artists worldwide. The result? Brilliant colors with incredible depth and vibrancy that truly make images pop.

Acrylic Prints

I create Acrylic Prints with remarkable clarity and depth that give your artwork a sophisticated, modern look. The polished surface creates a stunning 3D effect that brings colors to life with incredible vibrancy. Whether you need wall art or tabletop displays, I offer various options to achieve the perfect presentation.

Maple Wood Prints

Maple Wood Prints offer a warm, eco-friendly option with images printed directly onto 1/2" thick maple wood boards. The wood's grain and characteristics shine through light and white areas, adding a natural, vintage feel. We can also print a white ink underlay to enhance your image's true colors. Each print is unique, showcasing the beautiful wood texture on its surface.

Exquisitely finished **Framed** **Prints**

...

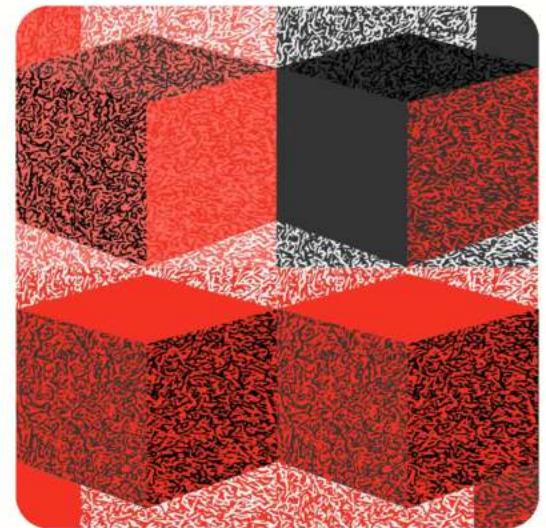

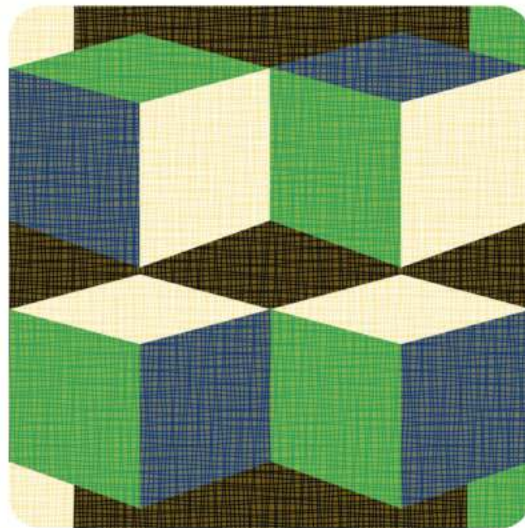

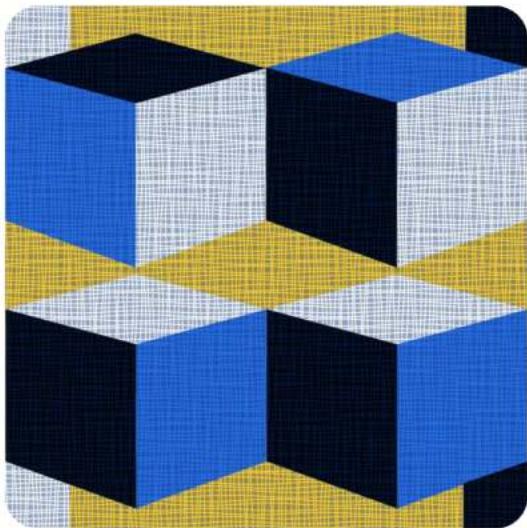

Choose from a variety of high quality wood or metal frames in a range of colors and moulding profiles. Frames can be added to Photographic Prints, Fine Art Prints, MetalPrints, Epic Prints, and Canvas Prints.

Custom Color Options

...

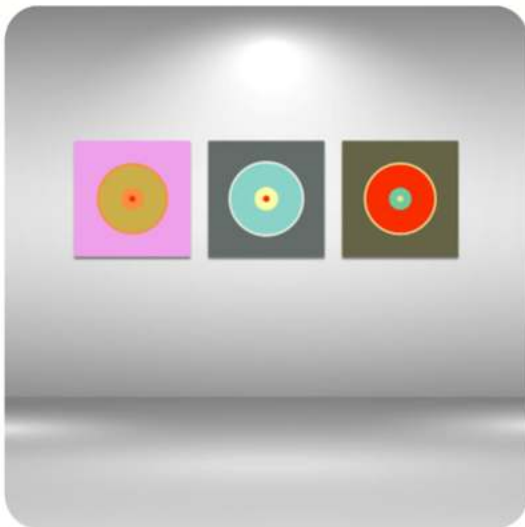

I work closely with each client to create custom color options that perfectly complement their interiors. This personalized approach means every piece of art is tailored specifically to your vision and space.

Cost-Effective Solutions

Affordable Art Solutions

Our art solutions are cost-effective without compromising on quality. We believe that stunning art should be accessible to all, and our affordable options make it possible for clients to elevate their spaces within budget.

Opportunities

Shifting Paradigm

Through my research and conversations with designers, I've discovered a significant opportunity in the market. Many interior designers working on corporate projects don't have budget allocated for original artwork, so they're forced to rely on generic online platforms to fill these spaces. I give you more control!

Collaborative Partnerships

Let's **Collaborate**

I love collaborating with designers and clients. Let's work together to bring your vision to life and create spaces that truly make an impact.

Summary

Why Print on Demand Art?

- Every piece can be customized to match your exact vision
- You choose what works best for each project and client
- It's a new profit center that requires zero upfront investment
- Serves everyone from corporate clients to homeowners
- Simple process from concept to finished, delivered artwork
- Your clients get the final say in what goes in their space
