

Artworks of Jason Amatangelo

Artist Statement

Jason Amatangelo's art is known for its meticulous attention to detail, and it all starts with the process. Jason's art which he describes as analog 3-D or multi-dimensional comes together through a series of geometric manipulations layered in many laminated plains inside a shadowbox frame. The process of making this kind of art is what drives him. Jason strives to create works that are both simple and complex, beautiful and brutal, layered and unique. Jason's goal as an artist is to create something that has never existed before.
